Now Work Begins
Rich Men Not Worried
Don't Know Too Much
N. V. Central Listens

THE PASSING OF Labor Day means the beginning of another work year for those that take work seriously. A few rejoice that hard work has returned. Many would have vacation days last forever. The few will amount to something.

With this month the campaign comes to life. Lobbying of congressmen to do the fact that many big men, which means rich men, care little which candidate wins. Both are considered "safe." No time either or few trade this time, only something to drink for an issue. That does not disturb the "best minds." They know position is to the Constitution to stay, whether they like it or not. Most of them like it. Prohibition interferes with the northern worker's beer, and the southern negro's gin. It does NOT interfere with the "gentlemen's" champagne, north or south.

While politicians and editors are calm, the clergy shows signs of excitement, north and south. The Rev. Dr. Stratton hurls this at the Democrats: "The wicked shall be turned into Hell, and all the nations that forget God." The doctor adds: "If we now turn away the United States, we shall deserve our fate."

New York Socialists say they are taking votes from the Democrats, because Democrats are bidding for Wall Street support. Straw votes among union workers show a heavy Socialist vote. That vote will be missing in November. Something in the average man makes him want to win. Knowing that the Socialist can win, those that mind vote for them, won't.

Knowing too much is dangerous. If your knowledge is offensive to the mob, Man after man is taken for a ride, and tossed from the car, dead, for knowing and telling.

An important business man of New York, contractor on a big job, is found dead fifteen miles from his home, revolver in hand. The police ask questions. He is supposed to have known too much about political graft.

When "Big Tim" Sullivan, leader in Tammany Hall, introduced his Sullivan bill for first pistol carrying, he said to this writer, "Five fifty dollars I could have any man in the country killed."

Bootleg property has changed the price, not the system.

The New York Central did not listen to the first suggestion of fast combustion air and rail trips. General Atterbury of the Pennsylvania, got the start, with his Atlantic to Pacific line, connecting with Santa Fe, and saving two days.

But New York Central, listening now, has put twelve thousand Ford planes to work and will deliver the Chicago "lived businessmen" in New York overnight.

Leaving Chicago's municipal airport at 5:20 p. m. and changing to a sleeping car at Cleveland, the traveler arrives in New York at 3:30 next morning.

Development of air traffic fits naturally into railroad and gives railroads a chance to win within the next few years. NOW is the time to invest in New England real estate! Surprising values are offered on terms you can easily meet.

George Harvey sold Northville, Philadelphia, fond of snails, came to New York to eat them. They had snails not catch them.

Things have changed, and Philadelphia is becoming modern like New York, or even Chicago. Grand jury reports told of a Philadelphia bootlegger working any first-class American city. A majority of the police force are on the bootleg payroll, and

Sullivan Praises Exposure of Power Lobby in Schools

The Federal Trade Commission's investigator of the power trust has revealed astonishingly what huge sums of money can accomplish in the way of influencing public opinion for private gain, it was asserted by Boston School Commissioner Edward M. Sullivan, candidate for Congress, at a rally in his Ephraim Center, last night.

He was asked:

"Find out," he snapped.

He then took a seat among some 15 individuals appearing either for or against his position.

William H. Munroe, a Boston insurance man, who took 500 feet from the site of the station at High and State sts., Northampton, declared "some other conditions" which attended the opening several weeks ago, before a full sentence, and a heavy fine, convinced the attorney mayor he had better see a permit before continuing.

The insurance broker stressed the fact that 500 gallons of gasoline stood on the site, about one of the busiest traffic corners in the city, would materially increase the fire hazard.

70,000 WESTERN RAIL WORKERS FAVOR STRIKE

Chicago, Sept. 4 (AP)—The strike vote of 70,000 members of the Brotherhood of Railroad Trainmen was being counted at the Brotherhood headquarters here today. WARNER PUSHER PROBE

Warner and his associates to get evidence regarding such frauds from the insurance companies this week to add to what he has already received from Capt. George A. Fisher, register of motor vehicles.

Before returning Commissioner Musk made arrangements for delivery of the photographs.

While diplomats representing many nations watched, Secretary of State Kellogg, who gathered the world peace treaty, signed the pact. The photographs were in the mail aboard the plane which hopped to Boston after being catapulted from the liner Ile de France.

FRENCH ON ATLANTIC FLIGHT

Continued from First Page.

The flying boat had reported them was in the bay of Biscay about 30 miles southwest of Bordeaux. The point indicated is approximately 230 miles from Le Bourget field, from which the start was made.

This was the first report of the plane since its take-off.

The report was taken as an indication that the plane was heading for the Azores with the intention of reaching the United States.

Their general course had been southwest from Le Bourget field until they were clear of the coast of France, after which it was apparent they had changed to a general westerly course.

The flying vessel, which is named the *Clayton*, sent the report concerning the plane by wireless to its owners at Fort Auroch.

The message added:

"Assaulted head wind, making high speed, flying high."

When the *Clayton* started from Le Bourget their goal was a mystery, some believing they were en route toward New York and others that they would head for South America.

Their plane, painted a bright yellow, has been called the "Canary Bird."

The plane is accompanied, it is understood by their leader, an

Armand Lott or "Lott," and a Paris hotel owner. They planned to make the trip in 40 hours, provided New York was their ultimate goal.

FLORENCE TRUMBULL JOHN AND 'LO' ARE EXPECTED TO MARRY THIS YEAR

Now that John Coolidge is about to begin carving out his own future, scenes such as these pictured above are bound to come up in his memory and, doubtless, the remembrances will serve to cheer the President's son during his hours of toil. For John is going to learn the railroad business from the ground up. No small task even for the possessor of a coveted college sheepskin. But, then John has a reason, a strong one, too, if you let him tell it, in the daughter of the governor of Connecticut, a reason which will aid in keeping his spirits high even when the work is the dullest. It is an open secret that young Coolidge and Miss Trumbull are to marry within a year if all goes well. And there doesn't seem to be any reason why things shouldn't go well.

Air Chief Killed

FEARED FIRST MARRIAGE ILLEGAL

John C. Howard, of Haverhill, who has "raised ructions," domestic and otherwise, from Haverhill to California and as far south as Mexico City, has married an other motion picture actress.

The former husband of Ora Carey, Mack Bennett's most charming leading beauty, has taken as a bride Isabelle O'Neill, sister of Molly O'Day and Sally O'Neill, cinema stars.

First news of the romance came from Tulsa, Okla., where the couple were wed in a civil ceremony today, although a Catholic priest performed a religious ceremony for them in Mexico City a week ago, they revealed.

Fear that the first ceremony was illegal because priests are not permitted to conduct marriage ceremonies in Mexico, resulted in a repetition of the nuptials. Howard said, Howard's attorney of the heart, not to mention his troubles with his father, John P. Howard, former Haverhill manufacturer, have kept him in the limelight a half dozen years.

His first wife, Susan Sewall of Menford, and from her he was divorced. His father sent him to California to superintend the Howard business in the west and there he met Ora Carey to the altar, outfitting her two millionaires who he characterized as having flat feet.

His domestic happiness with "Ora" was of short duration and terminated one night when he found her, accompanied by her sister and two gentlemen of the film, parked in a "closed" automobile. Howard promptly knocked out both male escorts and forcibly removed his wife from their company.

She later had him arrested for threatening her and during their divorce proceedings it developed that he often slapped her face.

In the meantime, his wealthy father, refusing to kill the hated

URGE ISOLATION IN FIGHT UPON PARALYSIS

Six new cases of infantile paralysis reported today in the State Department of Public Health brought the total number of cases for the year to 234—12 more than reported on the same day a year ago.

Two of six cases reported over the week-end were in Boston and the balance in Salem, Watertown, Dedden and Worcester.

"Although there is still uncertainty about the exact method of spread of the disease," Health Commissioner George H. Bigelow said, "the presumptive evidence is that healthy carriers and mixed respiratory carriers and mixed respiratory carriers play a large part in its dissemination. Patients with infantile paralysis should be isolated in the acute stage in much the same way as typhoid fever or diphtheria patients."

It is pointed out that the epidemic constitutes another argument for the pasteurization of milk and the need of scrupulous cleanliness in handling all foods eaten raw.

HORSE SHOW AT MYOPIA NEXT SATURDAY, SAYS BETTY ALDEN

Labor Day Program Postponed

WIDE WHEELED HAYCARTS: slender actresses, drawn far beyond their pristine glossiness, even a victoria, yesterday stood all forlorn about the Myopia field in a dreary holiday downpour. Steeds that should have covered cover hordes for the honor of Truckman, Goodwin Mandell and other

MISS MARY AMES

stables, cramped in their comfortable stalls. Society that should have filled the surrery and the coaches bided elsewhere, as the Rainmaker held forth and caused the annual Myopia Horse Show to be postponed until next Saturday. So not until that time will it be known in whose trophy room the Keenwick, the Turner Hill, the Master's Challenge and the Myopia cups are to repose for the next twelvemonth.

OTHERWHERE ALONG THE NORTH SHORE (NOT ALONG ANY other Shore for that matter), and there are only at Myopia, does yesterday and today find sharper contrast. Society tends to its favorite horse show in today's flood, but more, mostly, specimens of mechanical transportation. And site about the field, in a sort of hermetic atmosphere, relief of yesterday's, when machine and manœuvre came grandly forth behind swarming boys and perfectly matched gray, and life was more heavily than it is now in the minor age.

FORESTER CLARK, THE ROWING, TENNIS PLAYING, POLO playing prodigy, son to John Dudley Clark of Boston and Shrewsbury and a famous tennis man in his day, spent the holiday in Newport. His name was inscribed in the Newport Casino Register as house guest of Mrs. F. Lethrop Ames, and in company with a merry company, headed by Miss Mary Ames, he proceeded to do all end. Mr. Clark is but recently back from Amsterdam, while he is well along with other American contenders for Olympic honors. High with hope and determined to shine should chance make him a member of the American crew.

YOUNG MR. ALLERTON CUSHMAN IS SPENDING SOME TIME in Newport as house guest of his grandfather, General James Parker, at pleasant "Greenville Farm." Like Mr. Clark, Mr. Parker is just back with the Olympians that went to Amsterdam in their cars, red, white and blue shield, and collect the major share of "points" from all other contenders. I believe Mr. Cushman was bow war in the shell manned by stalwarts from Harvard. He plans to be for the greater part of September at pleasant "Greenville Farm," where grand parents in the dinner line make a long season.

MURRAY FORBES, JR., ALSO IS A NEWPORT WEEKENDER. His name goes down in the famous Casino Register that has held the cognomen of every potentate in two hemispheres as house guest of the James Denison Sawyers, to whom through the maternal line of Constance he is related. Mrs. Sawyers was formerly Mrs. Howard Chubb, is a Newport headliner and mistress of "The Ladies' out on Ocean ave., just where that winding way of placid water sweeps from Bailey's Beach toward the ocean. It was the slender Miss Lucy Cushman, Mrs. Sawyers' charming daughter, who was one of the first to sport saucy stockings on the Casino courts and so start on his merry way a brand new fad.

ONE OF NEWPORT'S MOST charming young women of the summer colony spends the holiday weekend at the North Shore. Miss Florence Mitchell's radiant presence in the Goodwin Barrell party at the Whippet Races added much to a group quite overpoweringly gifted in individual pointitude. An orchid costume she wore that evening, and it had a small tail that folded closely about the head, and a silk front strikingly designed in geometrical purples and rose pinks. Miss Florence Mitchell and Miss Helen Mitchell move serenely within the very smart younger circle of the Society Spa. Bright stars of the younger social set.

THEY PLAY EXCELLENT tennis, they fit from one smart track to another, since they possess wardrobe and athletic chic, and when beauty is in demand for fête or pageant they are first choice. The parental routine in the Society Spa. Bright stars of the younger social set.

ALL BACK WITH MARVELS OF THE ARCTIC GIVES MOST PRIMITIVE RACE FIRST AUTO RIDE

Sydney, N. S. Sept. 4 (AP)—The end of Comdr. Donald B. MacMillan's 11th venture into the Arctic and sub-Arctic was drawing near today with one of the principal objects of the expedition still undetermined—proof that Norsemen ever reached Labrador.

The expedition aboard the Bowdoin put in here from Nain, Labrador, for fuel and prepared to continue to Wainwright, N. S., from whence it sailed in June, 1927.

The party succeeded in fixing the boundaries of Arctic plant, fish and bird life at a time much farther north than supposed.

Included among 6000 specimens which the schooner were many varieties hitherto not thought to exist in those regions.

A story of how the wreck of the Hudson Bay Company's steamer, the Bay Rupert, and proves the salvation of starving Eskimo settlements of northern Labrador and of a visit to Kottanar Island, Frohler Bay, the first attempted settlement of white men in the sub-Arctic, were highlights of narratives told by the Bowdoin's company.

"We have been unable to discover any conclusive evidence that the early Norsemen ever reached Labrador," MacMillan said. "My own belief, however, is that they probably did."

MacMillan said that the Norsemen came there presumably from Greenland, where there are indubitable Viking ruins. But although the natives paid with great politeness to where their legends say Norsemen lived and where they were killed—and there are ruins which might be Norse—no conclusive proof could be discovered.

COMFORTS OF HOME
All the comforts and some of the luxuries of home were to be found in Igloo after the Bay Rupert went ashore on Clunker Rock, Cape Harrison, MacMillan said. Aborigines who found here necessary things, such as flour, sugar, canned goods, sewing machines and automobiles, while flour was sold to dogs.

"The wreck of the Bay Rupert was a Godsend," MacMillan declared. "She was loaded with everything that could be imagined. Sir Alfred Grenville of the Labrador Museum, asked if I could mention on a single article that could not be found in her hold. I guessed several times without success. Even her stock of rifles was in tin cases and went ashore undamaged."

The Bowdoin picked up three loads of flour in large crates at sea. It was found that an inch or two on the outside had caked with salt but the bulk of each bag was fresh and sweet. The flour was presented to the Norwegian Mission at Nopale to feed destitute natives.

Kottanar Island was found in virtually the condition that it was left in by Sir Martin Frohler. Famed Elizabethan explorer, 30 years ago. The MacMillan expedition was the first to visit that place for 43 years, and the second party for three centuries and a half.

During the absence of MacMillan at St. John's, N. F., the Bowdoin, command of Capt. MacMillan, master of the Radio, an auxiliary, where the scientists on board had an opportunity of seeing Kottanar and St. John's. The Bowdoin group found that Frohler Bay was shaped differently than as charted.

The story of Frohler's colony is another of the early tragedies of the North. Frohler left his men well housed and supplied, but they were never heard of again. In 1580 the Hall expedition stumbled upon band cold, cold and other evidences of previous white occupancy, and learned from traditions picked up by the natives that the colonists flourished until they quarreled with the natives and killed some of them. The Eskimos retaliated by massacring the settlement.

GIVE ESKIMOS AUTO RIDE.
The expedition threw new light on the Norsemen Indians, a billerico. It is the known site of the interior of Northern Labrador, Dineen Brown, anthropologist, declared the Norsemen were one of the most primitive people in the world. Their language resembles a Greek dialect. They are particularly hardy and can live with comfort in ordinary skin tents with the weather at 43 below zero.

THE BABY SOME MOTHER FORGOT

Beatrice Maloney has the time of her young life feeding the baby, while Rose Doolan, little sister of Mrs. Shalla, wife of the Brookline officer who found the deserted baby, holds the little one. The baby is being cared for by Mrs. Shalla pending action by the State in his behalf.

STATE TO TAKE OVER ABANDONED BABY

Ten little fingers and ten little toes are wiggling in vain for the comforting caresses of his mother today.

Somewhere that mother must be haunted by the memory of the blue-eyed little man of two months she abandoned in a Brookline street.

Today the practical, statistical hands of the Commonwealth of Massachusetts will take over his care unless his young, masculine will has reached out to the hidden mother and touched her heartstrings, so unyielding liberty.

Since his desertion, Mrs. Nicholas Shalla, wife of a Brookline police officer, has cared for the abandoned infant.

But he wouldn't be a "taken child" if the children of the neighborhood, thrilled at his presence, could have a word to say.

They will form a cooperative motherhood society, incorporated only for the abandoned boy—if they could.

Who is he? Why was he left alone? What if Mrs. Shalla, officer, takes him?

The inquiries of solicitous children are taking the ingenuity and the patience of the charitable Mrs. Shalla.

But little she will probably give up her charge and the townswomen offering will take on his great burden of institutional control.

Today he cooed and laughed. Then from the little blue eyes, a crystal shadow leered through. His head

turned, his gaze followed the photographer, he patted his bottle. Tears filled the eyes of the wet nurse.

Meanwhile, slender claws are probing the marble in the search for the mother.

**TAXI DRIVER CAUGHT
AFTER CRASH; MAN DYING**

Charged with abandoning his taxi cab and fleeing after it was in collision with another automobile whose driver was probably fatally injured, Frank McKelroy of South Boston was arrested today and held in \$1000 bail for a hearing later.

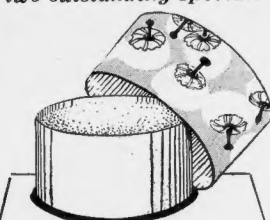

The injured driver is Edward Bonner, Palomar, East Boston, at Carney hospital with a compound fracture of the skull. His wife was less seriously injured. The accident occurred on Fourth st., Sunday night and McKelroy's arrest followed in violation of Probation James Murphy.

Dempsey Speaks—Just Like Cal

Philadelphia, Sept. 4.—Based on a battery of interviews who have the great man's private venue of the understanding that he was to make a statement on the future of boxing, Dempsey once again declines to commit himself definitely on the question open to the future. He declares that he has no concrete plans at this time.

Ex-School Stars Aid B. U. Grid Chances

Coaches Ed Robinson and Reggie Brown are thankful that the freshman rule at Boston University will not go into effect until next year, for three former scholastic football stars have entered the Intown school and will report for the opening practice at the William Nickerson Recreational Field, at Weston tomorrow.

The three are Al Brown, Reggie Brown, and Timmy Loughran. Brown and Loughran were both All-Americans at Georgetown, while Loughran was also a member of the Georgetown football team.

By BILL GRIMES

One of the greatest attractions ever offered to the public will be played at the Woodland Golf Club tomorrow when Bobby Jones and Johnny Farrell will play a 20-hole four-ball match with Walter Hagen and Gene Sarazen in front of the Ryder Cup fund.

In this exhibition, the winners of the Ryder Cup will play the winners of the U. S. Open. The fund is for the purpose of raising money for the construction of a new clubhouse at the Woodland Golf Club. The fund is now \$10,000 and the goal is \$25,000.

The match will be played on the Woodland Golf Club course, which is one of the best in the country. The match will be played on the 18th hole, which is a par 3.

A WIFE'S MEDITATIONS

By HELEN ROWLAND
MOST modern couples decide to have the automobile first—and the baby when they can afford it.

In his mother's eyes, an only son is always a burnt offering upon the altar of matrimony.

The admiration of a bridegroom is the only one which will make a girl's spirits and make her happy, after they have been punctured by an unhappy love affair.

The first sign of a woman's honeymoon is a man's struggle of power at "all the heavy baggage" his bride is "dragging around."

Also, poor man! Just about the time when he has learned to tie a tie, the dance of the new steps and make love effectively, along comes some girl, marries him, and makes him sit at home, evenings.

It takes a lot more courage for a man to turn down all the pretty girls who come into his life and look for jobs or soliciting subscriptions—usually his STEVENSON RAIME'S moral code.

"Learning to love" a man who "will be good to you," like acquiring a teach for carrots, spinach and only baths, because they are "good for you" is merely a matter of learning yourself, and wishing you hadn't.

MAYBE I'M WRONG
NOWADAYS when you hear a fellow who doesn't know whether it is the milkman or the bootlegger.

The Unfair Sex
The stenographer who quit her job because she caught the boss kissing his wife.

Wasted Energy
Trying to get the loudspeaker on the high-pipers.

You're Right
The police are having a hard time keeping Scotchmen out of free-lance.

Ideal Dumbbells
The fellow who wanted to know if his mother and father were married the same day.

Love is a boulevard and marriage is the hitching post.

It's too bad that Fifth Avenue doesn't erect a monument to the Unknown Pedestrian.

HOUSEHOLD HINTS

In making boiled starch allow a half cup of the dry starch to a quart of boiling water. Wet the starch first with a little cold water, then pour the boiling water over it, stirrer all the time. Boil for half an hour in an hour, and just as you take it from the fire stir in a teaspoonful of granulated sugar. If you will add a pinch of salt to the boiling water with which you make your starch it will have a good effect in preventing the clothing stiffened with the starch from smelling stinky and getting sour in hot weather.

Mignonette, worn in window boxes will fly flies from entering through open windows. So will bunches of lavender. Tansy leaves sprayed on window ledges will keep flies out, so will periwinkle, but both are rather objectionable remedies. Mignonette, so troublesome to unsavoury sachet, will not attract beetles or persons smelling of oil of white Birch. It is rather expensive, but a very few fraps last a long time if it is washed in soiled with it. Flies, too, will not venture near the scent of birch, which odor is not at all unpleasant.

ART OF AIDING OTHERS

By LUCY LOWELL
WE help ourselves as we help others, a great man wrote. And this is basically true. BUT—We help others and ourselves only as we go about this great task discreetly, taking care that we do not take upon our shoulders burdens that belong rightly to others, that we do not busy our hands with work the hands of others should busy themselves with.

We help ourselves and we help others best as we help those who follow upon giving the wrong sort of help. Perhaps we even have seen others who began ambitiously, eager to achieve, grow lethargic and helpless after they have expended pure and sincere effort in their behalf. And if this is so, it is a pretty sure thing we have turned back, determined never to offer another life to a struggling soul.

Each human being has his own work to do, his own burden to bear, his own problems to meet. And we rob him of his rights and destroy our own efficiency when we take these over for our own.

They still envelop you. But pull out to a degree at least. This is the motto. (Copyright, 1928, King Features Syndicate, Inc.)

SNAP out of it. Revive your sagging spirits and diminish your world and that world about you is only humdrum if you make it seem so.

(Copyright, 1928, by King Features Syndicate, Inc.)

A group of four girls from Linton County made a devoted list of their possible suitors. It activities before the amphibious war. They were very enthusiastic. The girls worked to a disadvantage, too, because of poor lighting and being too far from the grandstand. But they were well liked anyway, the march of the conversation was carried away by the breeze. Under more favorable conditions the girls will be a real attraction.

MEN WHO MAKE AMERICA WHAT IT IS TODAY

This is J. Gifford Lippate, comb-over on public relations and advertising expert, who is a little bit of a country "carter" from Lippate, Me.

Lippate says that the present crime wave is largely due to the fact that young men "wear" careers.

"Show me a man who robs a bank," Lippate declares, "and I'll show you a fellow who is shifty and careless in his attire."
